Re: US EPA General Notice and Information Request for the
Chemetco Superfund Site in Hartford, Illinois

Dear Ms. Kerr:

I am writing in response to your December 2011 General Notice and Information Request ("104(e) Request") addressed to Glacier Vandervell, Inc. and Dana Holding Corporation ("Dana") regarding the Chemetco Superfund Site in Hartford, Illinois.

As you know, a group of alleged PRPs recently met in Chicago to discuss the Chemetco site. Dana participated in the meeting. We are aware that the alleged PRPs sent you a letter detailing a number of their concerns with responding timely to the 104(e) Request and requesting additional time to submit proper responses ("PRP Letter"). Dana concurs with the concerns raised by the group. In addition, Dana faces particular difficulties responding timely to the 104(e) Request. During the Dana Corporation bankruptcy, Dana Corporation sold and Dana no longer controls the facilities that allegedly sent materials to the Chemetco site. Potentially responsive documents are controlled by third parties. Therefore, Dana is working diligently with counsel and the current owners of facilities to search for responsive documents.

Given the complicated nature of the site, the vast amount of informational documents held or provided by EPA, the other issues raised in the PRP Letter, and Dana's reliance on third parties to provide a timely and thorough response, we respectfully request an additional 90 days, to and including June 1, 2012, to respond to the 104(e) Request.

Please feel free to call or email me with any questions.

Best regards,

Gregory Berlowitz
